

Benchmark Super Fibre Mash® & Benchmark Golden Oldies®

For our much loved older horses and ponies.

BENCHMARK MEAL PLAN NO. 3

Combining Benchmark Super Fibre Mash® with Benchmark Golden Oldies® is a simple and cost-effective meal option. High in fermentable fibre, low in starch and sugar, Golden Oldies® contains balanced vitamins and minerals, high quality proteins to provide an ideal amino acid profile, Omega 3 DHA, antioxidants, biotin, and pre and pro biotics - key inclusions that all combine to help your horse combat the challenges of old age. Best of all Super Fibre Mash soaks to a soft mash in a minute so Benchmark feeding is a breeze.

INGREDIENTS

- 500g of dry Benchmark Super Fibre Mash® pellets
- 1-1.5 litres of cold water
- Half the recommended daily rate of Benchmark Golden Oldies® (check on the bag)
- 500g-1kg lucerne chaff, haylage or equivalent

DIRECTIONS

Place Benchmark Super Fibre Pellets in a bucket, add 1-1.5 litres of water, leave to soak for 60 seconds.

Add Benchmark Golden Oldies® and lucerne and mix loosely through the mash and the meal is ready to serve.

Provide this meal to your horse twice each day.

***If your horses teeth are showing their age, add the Golden Oldies to the dry Super Fibre Mash and then add water.**

Notes - Not all feed scoops are the same. Please weigh a scoop of each dry ingredient to ensure feeding rates are accurate. Horses require at least 1% of their body weight in the form of pasture or hay each day.
